The authors have responded to this with a book that explains the different communication theories and models and goes on to show students how they work in the real world. Innovative exercises encourage reflection and enable students to practice their developing communication skills as they progress. Throughout the book the authors are focussed on promoting recovery and have put the service user at the centre of the discussion, ensuring that their voice is heard. Key features: - Covers the communication content of the new NMC Standards and Essential Skills Clusters for pre-registration degree-level nursing education - Focussed on promoting recovery and adopts a person-centred approach - Interactive style using realistic scenarios and case studies making theory easy to apply to practice - Includes a chapter co-authored by a service user offering a unique insight.
