Senior, 1836: The science which treats of the nature, the production and the distribution of wealth. Luigi Cossa, 1877: The science of the social ordering of wealth. Seager, 1913 Economics is the social science which treats of that portion of human activity which is concerned with earning a living. b. Money, is the center around which economic science clusters because in this world of ours it is the one convenient means of measuring human motive on a large scale. c.
