GOVERNMENT OPERATIONS: DISTRICT OF COLUMBIAS DEPARTMENT OF TRANSPORTATIONS REORGANIZATION AND USE OF FEDERAL-AID FUNDING: GAO-04-644R

Bibliogov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 42 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. The District of Columbia's (the District) transportation system is critical to the District's residents and businesses, the federal government, and the millions of tourists who visit the nation's capital annually. To help build and maintain its bridges and roads, the District receives federal highway funds from the Federal Highway Administration (FHWA). All of the District's bridges and about 30 percent of its roads are eligible for these funds; the remaining roads are maintained under the local transportation program using District funds. In 2003, the District expended a total of about 242 million on its bridge and road infrastructure, of which almost 158 million were federal-aid expenditures. To better manage its transportation services, the District reorganized its transportation infrastructure functions, creating a stand-alone Department of Transportation in 2002. According to the Volpe National Transportation Systems Center (Volpe Center), a lack of resources and inadequate attention to emerging infrastructure problems allowed local road conditions to decay to the point that in 1999, nearly 50 percent of local roads were rated fair or poor by FHWA. In addition, the District Department of Transportation's (DDOT) stakeholders believed that the organization was reactive, lacked vision, failed to communicate with citizens, and was unable to quickly respond to problems. Furthermore, we noted in 2000 that according to FHWA, the District's average processing times for transportation infrastructure design and construction contracts were lengthy--over 25 and 21 months, respectively, from notification of obligation ceiling to notice to proceed. To bring enhanced attention to transportation planning and management functions, as well as to improve processing times and overall performance, the Department of Transportation separated from the Department of Public Works and adopted a project management team approach to improve the...
