These bulletins will be issued monthly until November 1, and will be made up in much the same way as in former years, with information as to crop and climatic conditions, both in Massachusetts and throughout the United States, reports of correspondents, and special articles on subjects which are, or should be, of interest to our farmers. The average condition of winter wheat on May 1 was 89 per cent, as compared with 91.3 per cent on April 1, 82.9 on May 1, 1907, and 85.8. the mean of the averages of the past ten years. The average condition...
