Page Publishing, Inc., United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The purpose of this book is not to cast blame on any individual but rather to shed light on the lack of education among healthcare workers in this country regarding dangerous pharmaceuticals. Drug companies are pushing their products on doctors with one purpose in mind: to get rich. Physicians want to please their patients who want quick fixes to their problems. This is a dangerous combination. Doctors are trained by big pharmaceutical companies who do not have the interest of sick people at the heart of their work Many uninformed, trusting people become accidentally addicted to these prescription medications given to them by their doctors who want to please their patients. Physical dependence on drugs, like benzodiazepines, are a monumental problem in this country. Little is known by healthcare professionals about how to withdraw from these addictive substances. People can become addicted in a short period of time. Trying to come off the drugs, even under a doctor s care, leaves them experiencing physical, mental and emotional symptoms that can be unbearable. Healthcare workers don t...
